## The Art and Science of Cupcakes

The first party ran in February 2011 in Long Eaton and was highly successful, with one 11 year old participant declaring, "this is the best party I have ever been to!"

Chemistry graduate and **Classy Cupcakes** owner, Karen Attwood, brings her energy and passion for the versatile cupcake alive in these entertaining workshops.

They include the design (art) and processes (science) required to bake the best cakes. There is also a section on the history of cakes.

All materials and supervision is provided for the children to each make a box of 5 personalised cakes to take home.

Karen supervises private parties in your home or at a venue of your choice for a special celebratory activity with a difference.
